The Survey of Shannon Navigation is the result of special investigations and studies made by Mr. John Weaving, Lough Ree and Lough Derg; A programme of re-marking the navigation in these lakes is in hand. New markers may appear from time to time. It is important that navigators should be careful to locate their position at all times. The position of new markers will be indicated on charts displayed publicly at the Shannon Navigation Offices in the following places: Lough Ree—Lanesboro and Ahlone. Lough Derg—Portumna and Kiltale.
